## Predicta Credenza

The classic late 1950s Philco Predicta television is rounded off with bold lines that echo 20th century modernist masters to create this new classic cabinet. The grain patterns of the hand-matched veneer match with any material of your choice (shown here with shagreen embossed leathers). Available with a flexible interior drawer configuration and suitable for dining room or bedroom applications.

Available in all sizes and finishes. C.O.M. for fronting material.
