

KEITH FRITZ

Sidney Cabinet

Brown Davis Interiors designed this contemporary cabinet to have a nod to mid century design while offering a fresh spin on the classics. The accents of brass highlight the architecture as well as the beautiful wood grains available from Keith Fritz. The cabinet makes a statement in contemporary and transitional settings. The Sidney is part of the Brown Davis Interiors Collection.

Available in all sizes and finishes. The interior can be custom fitted for wine storage (as shown) or fitted for electronic equipment and/or TV-lift mechanism, or for other needs.
