

Victory Perimeter Leaf

This piece has its roots in the architecture of England's famed Lake District. Many of the area houses were designed by A.W.N. Pugin, the founder of the Gothic Revival movement and designer of the British Houses of Parliament. We wanted to maintain the table's classic feel while providing it with a modern silhouette. The perimeter leaf edition of the Victory table is equipped with leaves and an optional Lazy Susan allowing guests to share a meal family style with ease. This table is perfect for a larger dining space.

Available in all sizes and finishes.
